Animal Health Award Winner 2021

Cravinhos, May 12, 2022 - Ouro Fino Saúde Animal Participações S.A. (“Company” or “Ourofino”) (B3: OFSA3), a company engaged in research, development, production and sales of veterinary drugs, vaccines and other veterinary products for production and companion animals, announces today its financial results for the period ended March 31, 2022 (1Q22).

| QUARTERLY HIGHLIGHTS

- **Net revenue** in 1Q22 grows 19.9% to R\$ 202.3 million
- **Adjusted EBITDA** reached R\$ 28.9 million in 1Q22 (15.1% growth)
- **Adjusted net income** of R\$ 13.9 million in 1Q22
- **Leverage** of 1.4x EBITDA, including debt cost at 9.2% per year and 78% of the long-term debt.
- Completion of **Regenera’s** acquisition, a biotechnology startup with a stem cell-based product for the treatment of Osteoarthritis, Keratoconjunctivitis Sicca and Distemper Sequelae

| MESSAGE FROM MANAGEMENT

In 2022, we continue to advance with the initiatives and projects that have been responsible for our growth over the past years and are outlined in our strategic planning.

For the second year in a row, we held our Ourofino Day under a 100% online model, and we had the opportunity to showcase the consistency of the management model implemented. We brought the results we have achieved so far, and most importantly, we show the prospects for the Company's future growth in all our business lines, with operating strategies focused on the evolution of the customer journey, the generation of demand and access adjacent markets with high growth potential and high scale synergies with our current operations. We remain confident in the strategy adopted, through the centralization of our work on our cultural values: **play to win, care for people and connect with the world**. Access our Ourofino Day 2022 by clicking [here](#).

We have made continuous progress towards improving our environmental, social and corporate governance (ESG) and, in 2021, we were recognized by ABRASCA (Brazilian Association of Public Companies) for our annual report as the best of the year for companies with revenues of up to R\$3 billion. In 2022, we started to adopt the Integrated Reporting model, sharing our strategy, governance, performance and perspectives. To read the material, click [here](#).

It is with great pride that we share that, in 2022, we were certified again as one of the Best Companies in Brazil by GPTW (Great Place To Work), as a result of our team living our values. In 2021 we were ranked 8th place in the State of São Paulo, in the category of large companies in countryside São Paulo.

We know that the year 2022 started in a scenario of uncertainty with the increase in cases caused by the Omicron variant of Covid-19 and a challenging economic environment, with high interest and inflation rates. In this context, we focused our efforts on initiatives to gain productivity, develop products and partnerships, expand the coverage of our inventories, strengthen the relationship with our customers and adjust our prices, in order to maintain the profitability.

We hit solid financial results with 19.9% growth of net revenue, which reached R\$202.3 million, dilution of selling, general and administrative expenses by 1.6 pp and the consequent improvement in adjusted EBITDA, which reached R\$28.9 million with 14.3% margin. We continue to consistently generate cash and keep leverage low, at 1.4x Net Debt/EBITDA.

In the **production animals** segment, the retained growth in 1Q21 was 21.6%, reaching R\$ 140.6 million in net revenue over the period. We are attentive to the impacts that we have seen on our gross margins due to supply chain challenges, especially in China, with the recent increase of Covid-19 cases, and we have already started the year with price transfers in line with these impacts.

As for **companion animals**, we had an 11.3% increase with net revenue of R\$ 33.4 million in 1Q22. In this first quarter, we highlight the gradual resumption of on-site activities and the resumption of families' behavior to pre-pandemic patterns, consuming goods that compete with veterinary products in their baskets. We remain confident in our positioning, access and distribution strategy and, above all, the proximity to the veterinarian and tutors to bring the best solutions for pets.

In **international operations**, we achieved a R\$ 28.4 million net revenue in 1Q22, a 22.5% growth as compared to 1Q21, a result based on the efforts of the commercial teams, committed to generating demand, based on the close relationship with customers and distributors who represent us in these countries. We highlight the growth in local currency and increments of volume sold by our subsidiaries in Mexico and Colombia in a period of high exchange rate volatility, which put pressure on the business unit's margin.

In 1Q22, we concluded the transaction for the acquisition of Regenera, as announced in November 2021, starting the integration into our businesses and starting to reap the rewards of this operation, with the launch and commercialization of the product **NeoStem**. The product Neostem is patented and a solution for the less invasive treatment of diseases limiting the routines of Pets, indicated for dogs that have Osteoarthritis, Distemper Sequelae or Keratoconjunctivitis Sicca.

This move represents a breakthrough in the biotechnology market and places Ourofino at the forefront of the development of innovative researches and therapies, particularly for companion animals. We reinforce that the acquisition of Regenera added a technological platform to our R&D, which will enable other products to be launched with the same technology.

In 2022, we expanded a **successful partnership with the company Chr. Hansen** and we launched 3 new products in the first quarter. In 2021, the partnership with the Danish company earned Ourofino the recognition as the largest seller of its inoculant products around the world.

We made progress in the strategic pillar of **operational efficiency** with the completion of the first cycle of our Lean University, an initiative that aims to promote a culture of continuous improvement in our team. Through this forum, more than 90 projects were implemented that have already captured financial and productivity returns for the company.

In order to further improve **our customers' experience**, we will launch, in May 2022, the **iUse platform**, which reinforces our commitment to Reimagining Animal Health, by providing knowledge and developing our partners. Access our launch event on May 19 by clicking [here](#).

We understand the Brazilian cyclical and economic challenges for the year 2022 and we trust in the efforts of our teams, and in their adherence to our cultural values, in order to continue with the execution of our profitable growth strategy.

FINANCIAL PERFORMANCE

R\$ Million	1Q21	1Q22	Var %
Net revenue	168.8	202.3	19.9%
Cost of goods sold	(85.5)	(104.5)	22.2%
Gross profit	83.2	97.8	17.5%
(gross margin)	49.3%	48.3%	-1.0 p.p.
Selling, general and administrative expenses *	(53.0)	(60.6)	14.3%
Expenses on research and innovation	(11.6)	(15.8)	36.6%
Operating profit	18.6	21.4	14.9%
(operating margin)	11.0%	10.6%	-0.4 p.p.
Net financial result	(4.5)	(6.7)	48.4%
Income tax and social contribution*	(4.5)	(0.8)	-83.3%
Adjusted net profit	9.6	13.9	45.2%
(adjusted profit margin)	5.7%	6.9%	1.2 p.p.
Adjusted EBITDA *	25.1	28.9	15.1%
(Adjusted EBITDA margin)	14.9%	14.3%	-0.6 p.p.

(*) Excluding non-recurring expenses with refurbishment of the corporate building in 1Q21. In 1Q22, it does not take into account expenses related to M&A operation and merger of the subsidiary OF Pet. in addition to the gain from tax proceedings from previous periods. Including respective tax effects in both periods reported.

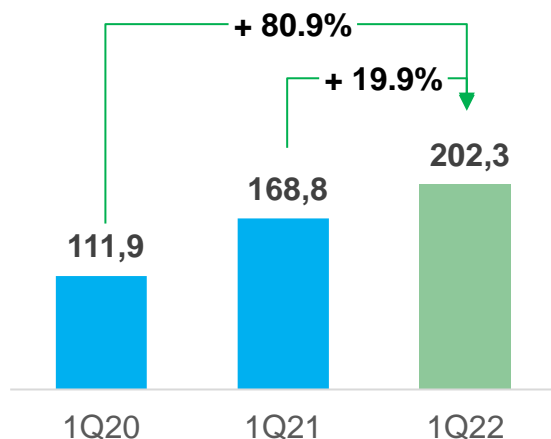

| NET REVENUE AND CONSOLIDATED GROSS PROFIT

The Company's consolidated net revenue in 1Q22 amounted to R\$ 202.3 million, with 19.9% growth as compared to the same period of the previous year, with a highlight to the progress in the three business units.

Gross margin in 1Q22 was 48.3%, 1.0 p.p. lower when compared to 1Q21. Despite the scenario for the supply of inputs and logistics remains challenging, we have been working with backup inventories, particularly for raw materials, and anticipation of purchases to avoid any disruption in the supply chain, fact of which remained stable in 1Q22. As a result, we have been able to fully meet our customers' purchase orders. In addition, there was an impact from the 11% collective bargaining agreement, as adjusted in November 2021, which puts pressure on expenditures in 2022. Additionally, it should be mentioned that price transferred have already been applied in order to maintain profitability.

Net Revenue - Consolidated
R\$ Million

Gross Profit and Margin - Consolidated
R\$ Million

| PRODUCTION ANIMALS

The business unit posted net revenue of R\$140.6 million in 1Q22, an increase of 21.6% as compared to 1Q21. This result was based on volume and price gains, with an emphasis on the IATF protocols and antiparasitic line.

Gross margin grew 1.3 pp as compared to the same period last year, reaching 41.2% and reflects the transfer in the price list in 1Q22.

Net Revenue - Production Animals
R\$ Million

Gross Profit - Production Animals
R\$ Million

| COMPANION ANIMALS

The business unit achieved net revenue of R\$33.4 million in 1Q22, an increase of 11.3% compared to 1Q21. Gross margin in 1Q22 was 68.4%, 1.9 p.p. lower when compared to 1Q21. The price list in 1Q22 had an increase; however, the gross margin was impacted by a less favorable mix and lower sales volume growth in this quarter.

Net Revenue - Companion Animals
R\$ Million

Gross Profit - Companion Animals
R\$ Million

| INTERNATIONAL OPERATIONS

In international operations, net revenue reached R\$ 28.4 million in 1Q22, with 22.5% growth as compared to 1Q21. We highlight the growth in local currency both in volume and price. The strong valuation of Brazilian Real versus 1Q21, plus a less favorable mix per spot sale to Other Countries, adversely impacted the business unit margins, which reached 60.2% in 1Q22, down 8.8 p.p.

Net Revenue - International Operations

| SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

R\$ Million	1Q21	1Q22	Var %
Selling, general and administrative expenses and others	(53.1)	(60.6)	14.1%
Percentages on net revenue	31.5%	29.9%	-1.6 p.p.

Selling, general and administrative expenses decreased by 1.6 pp compared to 1Q21. This dilution occurred despite the strong increase of inflation and collective bargaining rates, and reflects the efforts of management focused on the continuous improvement of administrative proceedings and the implementation of productivity and operational efficiency initiatives.

| RESEARCH AND DEVELOPMENT EXPENSES

R\$ Million	1Q21	1Q22	Var %
Expenses on research and innovation and portfolio management	(11.6)	(15.8)	36.6%
Percentages on net revenue	6.9%	7.8%	0.9 p.p.

We invested R\$18.1 million in research and development in 1Q22 (chart on page 14), of which R\$15.8 million are allocated to expenses and reflects greater investments in initial cycles of new product

development, in line with our strategic planning for new launches and partnerships, which aim to bring more future revenues to the Company.

| EBITDA AND EBITDA MARGIN

R\$ Million	1Q21	1Q22	Var %
Adjusted profit	9.6	13.9	44.6%
(+) Non-recurring results*	(0.1)	2.1	-2155.4%
Profit for the period	9.5	16.0	67.7%
(+) Net financial result	4.5	6.7	48.4%
(+) Income tax and social contribution*	4.5	1.0	-78.9%
(*) Depreciation and amortization	6.5	7.5	16.5%
EBITDA	25.0	31.1	24.6%
(+) Non-recurring effects (*)	0.1	(2.3)	-2354.5%
Adjusted EBITDA	25.1	28.9	15.1%
Net sales revenue	168.8	202.3	19.9%
EBITDA margin	14.8%	15.4%	0.6 p.p.
Adjusted EBITDA margin %	14.9%	14.3%	-0.6 p.p.

(*) Excluding non-recurring expenses with refurbishment of the corporate building in 1Q21. In 1Q22, it does not take into account expenses related to M&A operation and merger of the subsidiary OF Pet, in addition to the gain from tax proceedings from previous periods. Including respective tax effects in both periods reported.

Adjusted EBITDA in 1Q22 amounted to R\$ 28.9 million, with 15.1% increase versus the same period in 2021. Adjusted EBITDA margin decreased by 0.6 p.p. and it is worth noting the cost pressures mentioned above, impacting the gross margin, but offset by SG&A dilution, in an environment of higher inflationary pressure and collective labor agreement for our workforce.

| FINANCIAL RESULT

R\$ Million	1Q21	1Q22	Var %
Net financial result	(4.5)	(6.7)	48.4%

The negative net financial result in 1Q22 was 48.9% higher as compared to 1Q21, reaching R\$ 6.7 million. The main factor is the increased interest expenses on financial loans, due to the increased SELIC/CDI and TJLP rates. Even though these expenses have been partially mitigated by higher financial revenues on financial investments.

| INCOME TAX AND SOCIAL CONTRIBUTION

R\$ Million	1Q21	1Q22	Var %
Income tax and social contribution	(4.5)	(0.8)	-83.3%
Percentage on profit before IT and SC	-31.9%	-4.6%	27.3 p.p.

Income tax and social contribution reached R\$ 0.8 million in 1Q22, compared to R\$ 4.5 million in 1Q21. It should be noted that the calculation of income tax and social contribution is performed on tax bases that temporarily differ from the accounting result.

| ADJUSTED NET INCOME

R\$ Million	1Q21	1Q22	Var %
Adjusted net profit	9.6	13.9	45.2%
margin	5.7%	6.9%	1.2 p.p.

Adjusted net income for 1Q22 amounted to R\$ 13.9 million, an increase of 45.2% compared to the same period in 2021. This result is due to SG&A dilution, offsetting the impact of the financial result and the lower gross margin in the period, considering the cost pressures.

| CASH POSITION

Cash Position R\$ Million

In 1Q22, operating cash generation amounted to R\$ 17.0 million, with impact of the inventory policy, particularly raw materials, a mitigating action for the risks of the supply chain in China. It is worth noting that the average collection period was reduced between the periods. The flow of investments was impacted by R\$ 14.2 million by the closing of the Regenera acquisition transaction. In CAPEX, we have the Company's investments in R&D and maintenance CAPEX, amounting to R\$ 16.9 million.

| INDEBTEDNESS

In R\$ million	1Q21	1Q22
Current	99.0	86.2
Non-current	289.8	309.7
Gross Debt	388.8	395.8
Related derivative financial instruments	(3.6)	0.0
Gross Debt considering related derivatives	385.2	395.8
(-) Cash and cash equivalents and short-term investments	236.9	147.4
Net Debt	148.3	248.5
Weighted debt cost (per year) ¹	5.3%	9.2%
LTM net debt/adjusted annual EBITDA	0.91 x	1.42 x

¹Net debt with banks considering related derivatives and bank-issued guarantee costs.

The level of financial leverage was 1.42x Adjusted EBITDA. The debt profile remains well suited to the Company's long-term investment characteristics, with 78% of the debt in the long term and 28% of the total gross debt with term longer than 5 years.

Additionally, the average debt cost on March 31, 2022 was 9.2% per year, reflecting the level of the SELIC rate at 11.75% per year on that date. On the other hand, the average debt cost does not fully follow the increase in the SELIC rate due to the company's indebtedness profile, with approximately 48% of the volume indexed to TJLP and/or fixed at about 4.5% per year. It is worth noting that we still have R\$ 58.5 million to be released by FINEP in a contract signed in 2020 to finance the R&D activity.

with a final term of 12 years and a 3-year grace period (cost of that specific line of TJLP+0.39% per year), R\$ 33.4 million via BNDES for CAPEX maintenance carried out and planned for the next periods with total term of 10 years and with a 2-year grace period.

INVESTMENTS IN RESEARCH AND DEVELOPMENT

In 1Q22, 9,0% of net revenues was invested in R&D, amounting to R\$ 18.1 million. The invested amount growth of 18.6% in comparison with 1Q21 is in line with the Company's strategic plan of continuous investment in its product portfolio for ensuring their future revenues and will remain so for the coming periods. The graph below shows the Company's R&D total investments from 2019 to the first quarter of 2022.
